

## **IEA HEV Task 40 CRM4EV: webinar June 9th**

*Hosted by Argonne National Laboratory*

ZOOM webinar moderated by Philippe Vangeel, AVERE

*8am-11am Chicago; 15pm – 18 pm Brussels; 21pm 24pm Beijing/Perth*

### **Argonne National Laboratory Battery Recycling, GREET/BatPac and new battery chemistries**

- **Bert Witkamp** (Valuad) Opening of the e-workshop and introduction of Task 40 CRM4EV, 10'
- **Linda Gaines**, Welcome to Argonne: Introduction to the lab and virtual tour of EV and battery R&D
- **Venkat Srinivasan**: Welcome to Argonne: Introduction to the lab, with emphasis on battery R&D
- **Linda Gaines**: Battery Recycling: What is the ReCell Center doing?
- **Qiang Dai**: Economics and environmental impact implications of new recycling processes vs established ones, as battery content evolves (covering also the GREET / BatPac tools)
- **George Crabtree**: New chemistries on the horizon
- **Hans Eric Melin**: Status of Recycling Worldwide
